

Me and my children benefit tremendously from the radio station KLOVE. I never have to worry what they are listening to, it helps us learn how to serve our almighty God better, and it ministers to our needs and teaches us that we are never alone. I have the station on at my business and my customers love it. The music we listen to affects our behavior, that is a proven fact. Wouldn't it be wonderful if we all reacted in a Christian manner? That is what I believe KLOVE can do and is doing for our society. Thank you for your time.
